Ecto-1A LED Sign (v10): Attribution Evidence

Every element of the animation, with its source extract beside our rendering.

STATUS KEY

SOURCED	shown in a reference image, or reported as an observation in the GBFans thread
MEASURED	measured frame by frame from the deleted-scene clip (V1), color-calibrated
ESTIMATE	text/order sourced, but this detail (color, font, timing) is a best guess
INFERRED	reconstructed from partial evidence; sourced and inferred parts listed on the card
NOT RENDERED	known to exist, but no source shows what it looks like

INDEX

1. Hardware: 80 x 7 red/green matrix, green sits lower	**SOURCED**
2. Font: bold narrow (GHOSTBUSTERS, FOR HIRE...)	**SOURCED**
3. Font: bold wide (WE'RE BACK, WHO YA, GONNA, CALL?, US!)	**SOURCED**
4. Font: thin 5x7 (CALL JL5-2020, TO BELIEVE YOU)	**SOURCED**
5. A. GHOSTBUSTERS: rises in red after CALL JL5-2020 slides down	**SOURCED**
6. A. GHOSTBUSTERS: ~16 rapid red/green swaps, settles green, solid green	**SOURCED**
7. B. FOR HIRE... in red inside a green border	**SOURCED**
8. C. WE'RE READY	**ESTIMATE**
9. D. TO BELIEVE YOU: highlight moves word by word	**SOURCED**
10. D -> E. TO BELIEVE YOU wipes down as CALL JL5-2020 slides in from the top	**SOURCED**
11. E / L. CALL JL5-2020 in amber	**SOURCED**
12. Color wipes: A->B and B->C (green), E->F (red), F green->red	**INFERRED**
13. F. GHOSTBUSTERS green, then red	**SOURCED**
14. G. Green flash -> WE'RE BACK, words swap colors	**SOURCED**
15. G2. Five lines -> green boxes	**INFERRED**
16. H. WHO YA in red	**MEASURED**
17. I. GONNA	**ESTIMATE**
18. J. CALL? in red, slides up, sign blank ~0.8 s	**MEASURED**
19. K. US! alone, then green arrows on / off / on	**MEASURED**
20. K -> L. CALL JL5-2020 opens from center, arrows lit	**MEASURED**
21. L. CALL JL5-2020 holds ~2 s, then slides down	**MEASURED**
22. Shimmer on green GHOSTBUSTERS (A and F)	**INFERRED**
23. Timing: single file and two-part screen-timed build	**ESTIMATE**

Reference images are third-party (film stills, Getty Images news footage, a book scan) shared in the GBFans thread. Small extracts are included for attribution and comparison only; rights remain with their owners.

1. Hardware: 80 x 7 red/green matrix, green sits lower

SOURCED

Claim: 80 columns x 7 rows; each pixel has red and green LED clusters (both lit = amber); green clusters sit slightly lower than red. Source: GBFans thread 'Screen Accurate ECTO-1A Dot Matrix LED Sign (Reference)', posts #1 (prodestrian: grid count, cluster close-ups, WE'RE/BACK misalignment) and page 2 (Kingpin: 'yellow' is red+green). Visible in P14.

SOURCE EXTRACT

P14: Book scan, WE'RE BACK (sharpest reference)

OUR RENDERING (v10)

96x16 panel: green drawn half a sign-pixel lower

2. Font: bold narrow (GHOSTBUSTERS, FOR HIRE...)

SOURCED

Claim: 6-wide letters, 2-px strokes, 1-col gaps; GHOSTBUSTERS spans cols 0-78.
Source: P1 sampled on a perspective-corrected 80x7 grid; P2 for FOR HIRE spacing.

SOURCE EXTRACT

P1: Night still, GHOSTBUSTERS (film)

OUR RENDERING (v10)

GHOSTBUSTERS, bold narrow

3. Font: bold wide (WE'RE BACK, WHO YA, GONNA, CALL?, US!)

SOURCED

Claim: 7-wide letters, 2-px strokes, 2-col gaps; WE'RE BACK spans exactly cols 0-79. B/A/C/K read pixel-for-pixel; W/E/'/R from the softer red half.

Source: P14 (book scan posted by zerosum, thread post #10).

Letters H, O, Y, G, N, L, U, S, ?, ! are not visible in any sharp reference: same style, glyphs ESTIMATED.

SOURCE EXTRACT

P14: Book scan, WE'RE BACK (sharpest reference)

OUR RENDERING (v10)

WE'RE BACK, bold wide

4. Font: thin 5x7 (CALL JL5-2020, TO BELIEVE YOU)

SOURCED

Claim: Classic 5x7 letters, 1-col gaps.

Source: P12, P13, P16: Getty premiere close-ups (clip 1032076844, found by Kingpin, thread post #7).

SOURCE EXTRACT

P12: Getty premiere close-up, CALL JL5-2020

P16: Getty close-up, red O + amber BELIEVE

OUR RENDERING (v10)

CALL JL5-2020, thin

5. A. GHOSTBUSTERS: rises in red after CALL JL5-2020 slides down

SOURCED

Claim: CALL JL5-2020 slides down and out; GHOSTBUSTERS rises from the bottom in red.
Source: GBFans thread 'Screen Accurate ECTO-1A Dot Matrix LED Sign (Reference)' post #14 (film 01:23:17, museum arrival 00:49:44); confirmed in V1 frames 165-176.

A rising

A red

6. A. GHOSTBUSTERS: ~16 rapid red/green swaps, settles green, solid

SOURCED

Claim: Red GHOSTBUSTERS turns green and swaps red/green rapidly (~16 times), then a solid green frame.
Source: GBFans thread 'Screen Accurate ECTO-1A Dot Matrix LED Sign (Reference)' post #14 (Getty clip: 'rapidly swaps... about 16 times'; film 01:22:59). Red state: P1, P10, P11.
Count follows the thread; swap speed (one per 200 ms frame) is an ESTIMATE.

SOURCE EXTRACT

OUR RENDERING (v10)

FOR HIRE... with static border

8. C. WE'RE READY

ESTIMATE

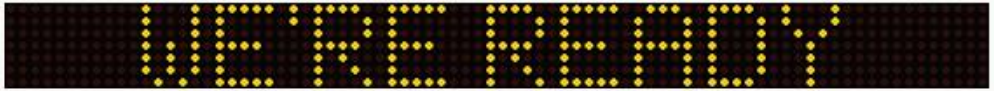

Claim: Text and position in sequence are SOURCED; font and color are ESTIMATES. Shown as the full phrase, as sourced.
Source: GBFans thread 'Screen Accurate ECTO-1A Dot Matrix LED Sign (Reference)' posts #2-3 (text, order). P15 shows thin amber letters, which may belong to BELIEVE, not WE'RE.

SOURCE EXTRACT

P15: Getty close-up, thin amber letters

OUR RENDERING (v10)

WE'RE READY (thin amber, estimate)

9. D. TO BELIEVE YOU: highlight moves word by word

SOURCED

Claim: Observed states: all red; TO green (rest red); BELIEVE amber (rest red). The highlight moves TO -> BELIEVE -> YOU, one word at a time.

Source: States: P8 (all red), P3 (TO green), P16 (BELIEVE amber). Word-by-word order: owner observation (Ryan).

YOU's highlight color is INFERRED (green, continuing the green/amber alternation). Rate: ESTIMATE.

SOURCE EXTRACT

OUR RENDERING (v10)

CALL JL5-2020 amber

12. Color wipes: A->B and B->C (green), E->F (red), F green->red

INFERRED

Claim: SOURCED: the wipes and their colors (solid green wipes to B and before C; red wipe into F; F wipes green to red). INFERRED: direction (left to right) and steps (one half-step each side of a solid frame).

Source: GBFans thread 'Screen Accurate ECTO-1A Dot Matrix LED Sign (Reference)' post #14 (Getty clip; film 01:23:28). Direction inferred from V1 frames 20-23, where red sweeps in from the left on this sign.

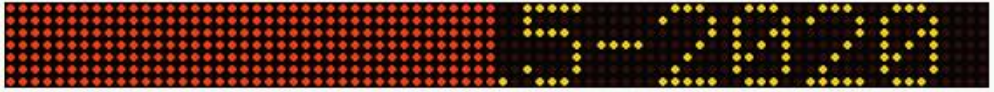

V1 extract shows the left-to-right red sweep the direction is inferred from.
